Insight: 2024 revenue was broadly flat compared with 2023, declining by 2.5% overall, in line with the Board's concerns. However, December recorded a more pronounced 7.5% year-on-year decline, indicating that the Christmas trading period warrants closer investigation.

Insight: Looking at stores within their own region can reveal issues that a company-wide ranking may hide. For example, Liverpool High Street (Core) ranks 11th in the North West, placing it in the region's bottom quartile, even though it ranks 43rd out of 60 stores across the whole company. This shows why it is useful to compare stores with similar local peers, rather than relying only on the overall company ranking.

Margin and Category Analysis — For Commercial Director

Category profitability, margin trends, and store-level variance to target

Store Display Name	Total Revenue	Revenue Target	Variance to Target %	Variance to Target
Truro Shopping Mall (Value) (STR-060)	2,735,580.28	2,761,745.57	-0.95%	-26,165.29
Guildford High Street (Core) (STR-013)	3,553,288.20	3,512,061.61	1.17%	41,226.59
Inverness Retail Park (Core) (STR-050)	4,376,795.52	4,333,864.54	0.99%	42,930.98
Exeter Retail Park (Value) (STR-059)	2,818,173.45	2,771,641.88	1.68%	46,531.57
Total	247,747,308.75	234,936,872.64	5.45%	12,810,436.11

Insight: Almost all stores are meeting or beating their revenue targets. Truro Shopping Mall (Value) is the only store below target, at 0.95% behind plan. Most categories are also performing close to expectations, but Electronics and Food & Drink are further behind, so it may be worth checking whether higher costs or heavier discounting are affecting profits in these areas.
